

RIGHT CARE, RIGHT NOW

Right Care, Right Now is the District's program specifically focused on connecting you with the most appropriate health care. Managed by DC Fire and Emergency Medical Services (DC FEMS), our goal is to improve your health outcomes.

Not sure when to call 911? See below for some guidance. If your symptoms are not serious, life-threatening or likely to become life-threatening, you can contact one of the medical clinics on the back of this card. You will receive comprehensive care and your wait will be shorter than in the E.R.

WHEN NOT TO CALL 911:

Sprained ankle

Scraped knee

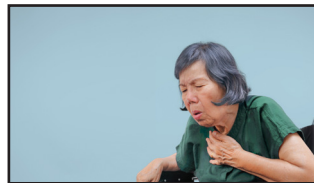

Getting a prescription

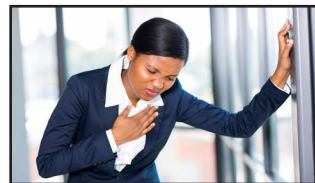

Transportation

You should not call 911 when the injury is not serious, life-threatening or likely to become life-threatening.

WHEN TO CALL 911:

Trouble breathing

Symptoms of a heart attack

Fainting or dizziness

Sudden, severe pain

You should call 911 if the injury is serious, life-threatening or likely to become life-threatening.
