District of Columbia Fire and EMS Department

F&EMSD Form 502
Rev. 11/07

EMS Evaluation Report

Name: _____ FDID: _____ Incident#: _____

Date: _____ Paramedic: ☐ EMT-I: ☐ EMT: ☐ Assignment/Unit: _____

INSTRUCTIONS:

1. Is the candidate's performance medically and operationally appropriate, adequate and compliant with department standards? Check ***Yes*** or ***No.***

2. For each ***Yes*** or ***No*** checked, provide supporting written documentation of observations, pertinent negatives, and methods of compliance.

3. Completed form will have each line-item checked ***Yes*** or ***No*** with appropriate remarks.

STANDARDS:

PROFESSIONALISM-Vehicle and equipment clean and well repaired. Uniform complete, clean, and orderly; including rank insignia, name plate and PAT tag. Language without oaths, vulgarity, colloquialism. Clearly understood by patient, bystanders and team. All necessary signatures obtained and appropriate patient hand off in event of care transfer.

COMPASSION-Recognized and attended to patient's complaint, concern and needs. Avoided argumentative or judgmental language or behavior. Demonstrated caring behavior. Attended to patient comfort. Recognized and eased anxiety, fear, and concern. Recognized and supported family, bystanders as necessary.

PSYCHOMOTOR SKILLS-Performed appropriate skills. Performed according to the standard of care. Performance adhered to protocol. Complete including necessary evaluations prior to and after skills are performed. Understood and demonstrated problem solving to complete skill. Aseptic technique where required, clean technique otherwise. Appropriate use of personal protective gear (gloves, masks, etc.).

DECISION MAKING-Selected correct algorithm for chief complaint, assessment, and history. Selected correct destination, include transport to appropriate specialty centers for trauma, pediatrics, cardiac, stroke, burn and non-critical emergencies. Appropriate interventions utilized. Hospital pre-notification and/or on-line medical control performed, if appropriate.

TREATMENT-Assessment complete, appropriate for patient. Interventions appropriate and complete. Scene time meets department standards-critical trauma-10minutes or less, all others 15 minutes or less. 902, ePCR, complete. Necessary documentation delivered to hospital. Medications administered per protocol. EKG interpretation accurate. Patient changes noted. Ongoing assessment conducted every 5 minutes for critical patient, every 15 minutes for non-critical. Documentation of all assessments. Appropriate physical exam completed for all non-critical patients. Rapid trauma assessment completed for all critical trauma patients. Assessment and treatment appropriate for mechanism of injury.

Provider Clinical Impression

Provider Name: _____ **EMT-B**____ **EMT-A** _____ **EMT-I**____ **EMT-P** _____

Supervisor: _____ **Years of Service at the Above Level:** _____

Date: _____ **Number of Incidents on Which Provider was Observed:** _____

Incident No. _____, _____, _____, _____, _____,

_____, _____, _____, _____, _____

All Provider Skills

Please rate the provider on the following skills and attributes utilizing the following scale. Place a check mark in the corresponding column for your impression of that skill or attribute.

Exceptional = 4 Acceptable & Consistent = 3 Inconsistent = 2* Frequently Unsuccessful = 1*

**Note: All ratings of 1 or 2 must be explained fully in the comments section.*

Skill/Attribute	4	3	2	1	Not Applicable
Patient Assessment					
General Protocol Knowledge					
Respiratory Knowledge/Skills					
Pharmacology Knowledge					
Trauma Knowledge/Skills					
Combitube/Airway Management					
Intravenous Access					
Charting Skills					
Utilizes Available Resources Efficiently					
Provider Follows Direction					
Provider Performs Well in a Leadership Role					

Provider Can Function Effectively on "1+1" Unit? _____ Yes _____ No *(If "NO"Explain Below)*

a

EMT-1 or EMT-P Skills

Please rate the Intermediate or Paramedic on the following additional skills and attributes utilizing the same scale as above. Place a check mark in the corresponding column for your impression of that skill or attribute.

4

Skill/Attribute	4	3	2	1	Not Applicable
ACLS Knowledge					
Intubation /Airway Management					
ECG / Rhythm Interpretation
